- 12 X 12 Decora, Vue, Argus
- 4 X 8 Decora, Vue

Make your home safe with thick break resistant glass blocks. Mortared into place, they make a virtually impenetrable window.

SAVE ENERGY!

The regular blocks provide an insulating efficiency of a 12 thick concrete wall.

LOW MAINTENANCE!

No Painting, caulking and puttying!

NOISE REDUCTION!

Glass blocks lower sound transmission dramatically. Eliminates dust and drafts! A total Seal when mortared into place.

Can be used around the house - dividing walls, basement windows, door privacy accent, in your kitchen, for shower walls, tub walls and more! Not a structural load-bearing product.
